

How to set up a 'Driver not logged in' alarm

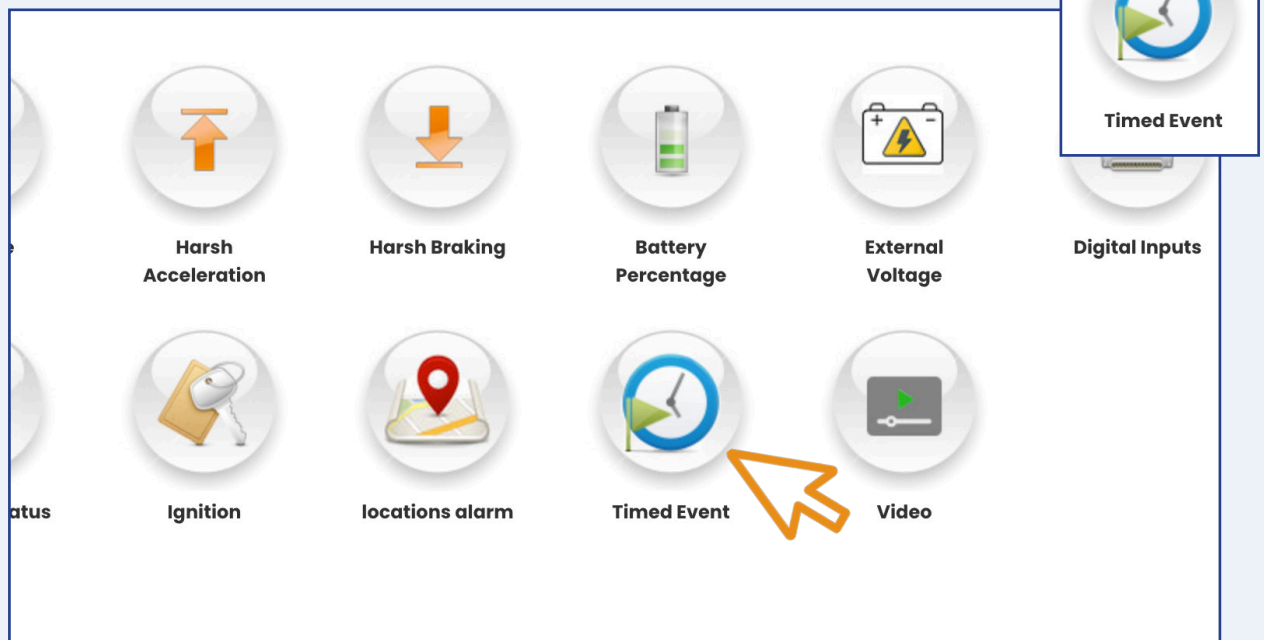

1

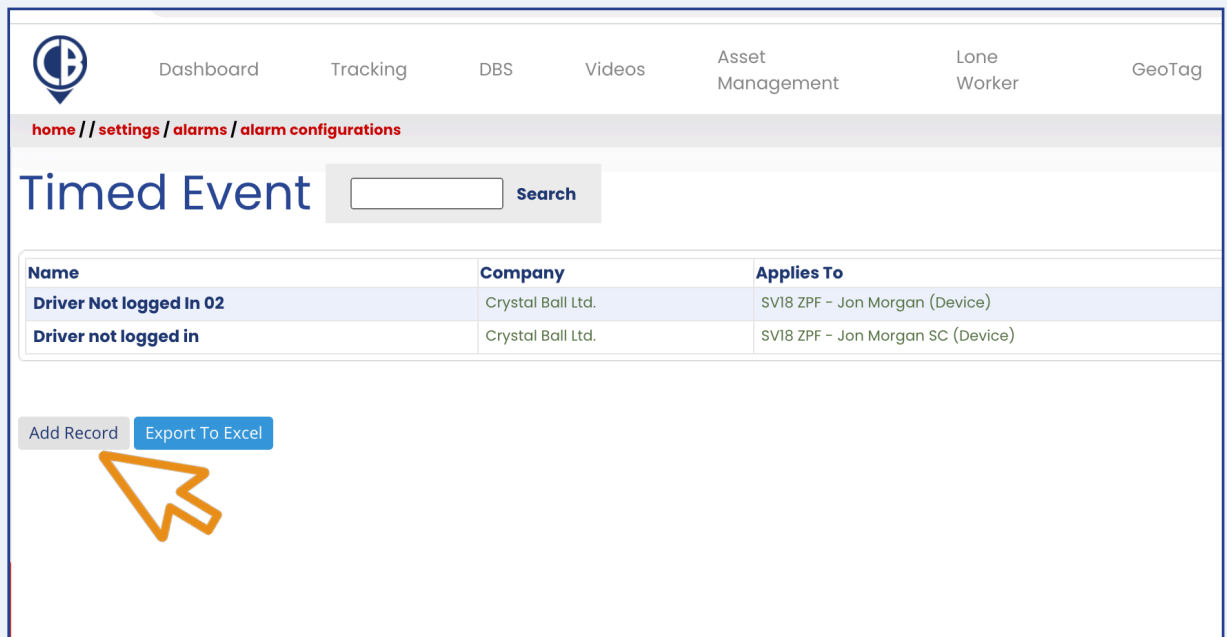

First, select 'More' and then 'Alarms'.

2

Once in 'Alarms', select 'Timed Event'.

3

home // settings / alarms / alarm configurations

Timed Event

Name	Company	Applies To
Driver Not logged In 02	Crystal Ball Ltd.	SV18 ZPF - Jon Morgan (Device)
Driver not logged in	Crystal Ball Ltd.	SV18 ZPF - Jon Morgan SC (Device)

Select 'Add Record'.

4

Note: Selection availability is dependent upon device type and configuration.

☒ crystal ball ltd.

- ☒ demo (bdm)
 - ☐ sv18 zpf - jon morgan sc (mobile client)
 - ☐ t4 tjm (mobile client)
 - ☐ ye19 gfg - tara sc (mobile client)

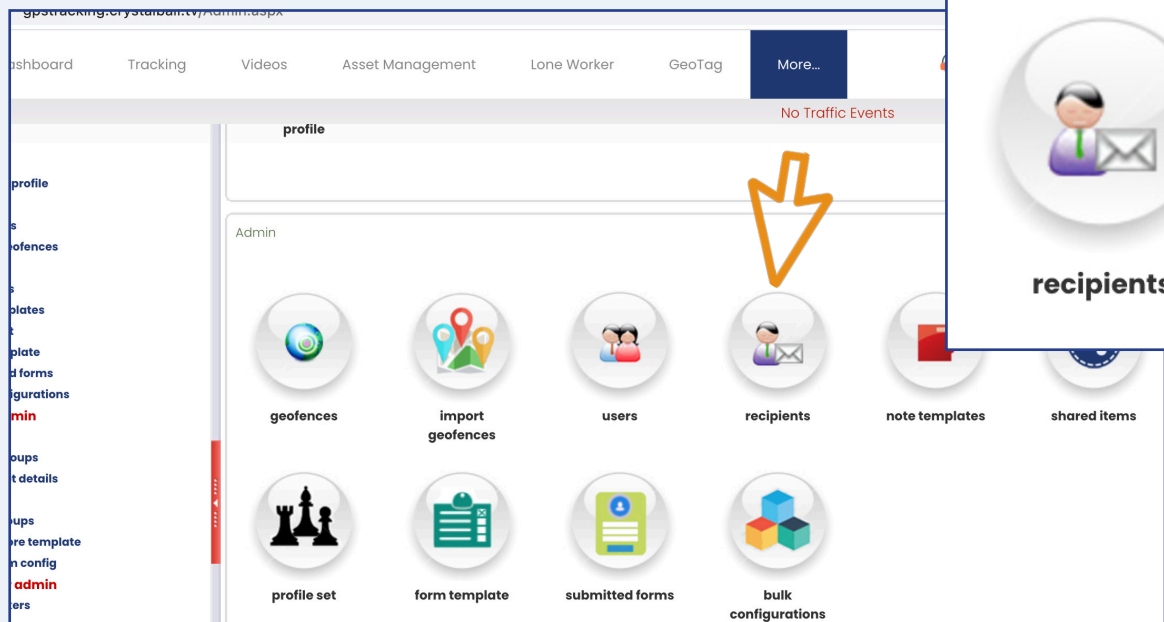

- Name the alarm and change the 'Device type'. If you have our SmartCam solution the 'Device type' should be 'mobile client'. Next, select 'Driver not logged in' under 'Trigger source' and choose a 'time delay'. We suggest 5 minutes + to allow for small journeys such as moving a vehicle.
- Tick the 'analytics' checkbox if you want triggered alarms to display when using the analytics feature (More > analytics).
- You can also add a brief message for display, upon activation of the alarm.
- Select a recipient/s from the list (if the recipient is not listed go to step 5).
- Select a vehicle/s from the right hand side and create a schedule if you would like the alarm to be triggered at certain times/days. This can be left blank if you require the alarm to be triggered at all times.
- Click 'Save Changes'.

5

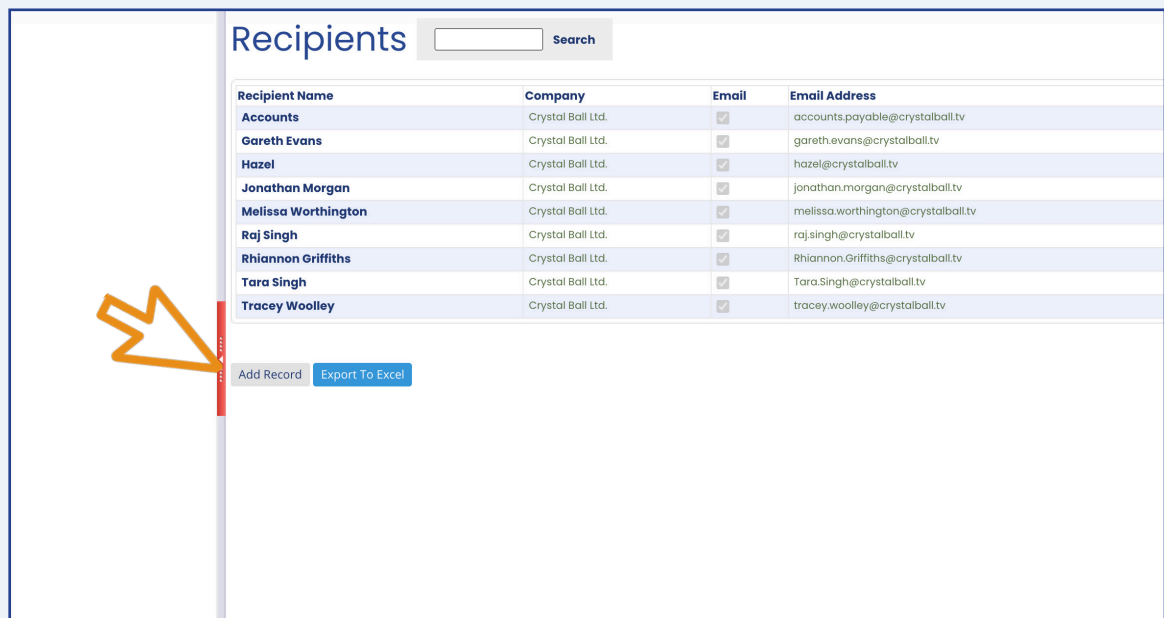

To add a new recipient, select 'More' and then 'Settings'.

6

Once in 'Settings', select 'Recipients'.

7

Select 'Add Record'.
